CERAKOTE®

COLOR MEASURE

We use three separate devices during production to accurately measure the color and gloss of our coatings. The following tools are used to ensure the strict color standard is met with every coating manufactured by Cerakote®: the X-Rite Ci6X Color Spectrophotometer, the X-Rite AcuGloss Reader, and the X-Rite Judge Light Box.

X-Rite Ci6X Color Spectrophotometer

X-Rite AcuGloss Reader

X-Rite Judge Light Box

For 230V

Light Sources
Artificial Daylight (D65)
Building Light: Cool White Fluorescent Home Light
Incandescent (Inc A)
Illuminant Light: Narrow Tri-Band
Fluorescent (TL84)
